

Capturing Courageous Advocacy

Class	Year 1
Activity	Building hedgehog homes
Date	Week beginning 4 th November 2025
Project Beginnings & Intent	Year 1 were discussing our environment and how we should care for it. We were discussing how our littering could have a negative impact on wildlife. The children were shocked at seeing a photograph of a hedgehog trapped in a jar. We discussed what we could do. The children thought we could build hedgehogs a safe home so they wouldn't need to try and find one from litter. We researched, built and provided some hedgehog homes.
Values	Kindness, Looking after our world
