

Capturing Courageous Advocacy

Class	Year 4
Activity	Protecting local wildlife
Date	4/11/25- 12/11/25
Project Beginnings & Intent	To raise awareness and support the wildlife in our community.
Values	Hope, kindness, respect – Proverbs 12:10 - "The righteous care for the needs of their animals"

We looked at the work of ZSL Whipsnade zoo and their conservation programmes, helping endangered animals across the world. We wrote letters thanking them and posters explaining the importance of protecting animals.

"Let's call ourselves wildlife warriors"

We took a look at our school and decided to make some food for our wildlife. After learning that many birds in England are endangered, we made a bird feeder using natural resources. We cut an orange and filled it with seeds. We spoke about the best places for our feeders, placing them in the trees. Now, birds have a happy home and some food for the colder months!
